

This May Day USW 1005 stands in solidarity with workers throughout the world in their fight for fair wages, benefits, pensions, working conditions, health & Safety.

We need a government that will protect workers' rights with trade agreements that benefit workers instead of corporations and wealthy elites.

We need an anti-war government that will invest in education, public housing and healthcare instead of funding foreign wars.

We need a government that will stand up to corporate greed so working families can afford essentials such as housing, food and medication. It shouldn't be a radical idea to stop greedflation and renovictions.

Finally, we need a government that has the courage to demand an immediate and lasting ceasefire in Gaza, an end to the genocide and occupation and develop a path forward so that people of Palestine can live in dignity and security.

Please join us at 3:30pm, Thursday May 1st at 350 Kenilworth Ave. North where we will be discussing what the Carney Liberal government will bring us and other issues that workers face.

At 5:00 p.m. everyone is welcome and encourage to go to the Workers Arts and Heritage Centre (51 Stuart St.) May Day celebration hosted by Hamilton District Labour Council.
